
NVIDIA RTX PRO 6000 Blackwell Workstation Edition
full-extent resampled chest: 256x256x256, 1 zero-angle view (saved index 0), 512x512, 1024 midpoints
Theoretical NVIDIA ceilings at each capture's recorded clocks.
L1 dotted/circle · L2 dashed/triangle · DRAM solid/square. L1/L2 use outgoing writeback proxies.
L2 writeback measures outgoing traffic. Total requested-sector counters include reductions.
All captured kernels and total requested-sector bytes remain in the numeric results.
